

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

B O O K I.

HAT Soil the Apple loves, what
Care is due

To Orchards, timeliest when to press
the Fruits,

Thy Gift, *Pomona*, in *Miltonian* Verse

Adventurous I presume to sing; of Verse

B 2

Nor

Nor skill'd, nor studious: But my Native Soil
Invites me, and the Theme as yet unsung.

Ye *Ariconian* Knights, and fairest Dames,
To whom propitious Heav'n these Blessings grants,
Attend my Lays; nor hence disdain to learn,
How Nature's Gifts may be improv'd by Art.

And thou, O *Mostyn*, whose Benevolence,
And Candor, oft experienc'd, Me vouchsaf'd
To knit in Friendship, growing still with Years,
Accept this Pledge of Gratitude and Love.
May it a lasting Monument remain
Of dear Respect; that, when this Body frail
Is moulder'd into Dust, and I become
As I had never been, late Times may know
I once was blest in such a matchless Friend.

Who-

Who-e'er expects his lab'ring Trees shou'd bend
With Fruitage, and a kindly Harvest yield,
Be this his first Concern; to find a Tract
Impervious to the Winds, begirt with Hills,
That intercept the *Hyperborean* Blasts
Tempestuous, and cold *Eurus* nipping Force,
Noxious to feeble Buds: But to the West
Let him free Entrance grant, let *Zephyrs* bland
Administer their tepid genial Airs;
Naught fear he from the West, whose gentle Warmth
Discloses well the Earth's all-teeming Womb,
Invigorating tender Seeds; whose Breath
Nurtures the *Orange*, and the *Citron* Groves,
Hesperian Fruits, and wafts their Odours sweet
Wide thro' the Air, and distant Shores perfumes.
Nor only do the Hills exclude the Winds:
But, when the blackning Clouds in sprinkling Show'rs

Distill, from the high Summits down the Rain
 Runs trickling; with the fertile Moisture chear'd,
 The Orchats smile; joyous the Farmers see
 Their thriving Plants, and bless the heav'nly Dew.

Next, let the Planter, with Discretion meet,
 The Force and Genius of each Soil explore;
 To what adapted, what it shuns averse:
 Without this necessary Care, in vain
 He hopes an Apple-Vintage, and invokes
Pomona's Aid in vain. The miry Fields,
 Rejoycing in rich Mold, most ample Fruit
 Of beauteous Form produce; pleasing to Sight,
 But to the Tongue inelegant and flat.
 So Nature has decreed; so, oft we see
 Men passing fair, in outward Lineaments
 Elaborate; less, inwardly, exact.
 Nor from the sable Ground expect Success,

Nor

Nor from cretaceous, stubborn and jejune:
The Must, of pallid Hue, declares the Soil
Devoid of Spirit; wretched He, that quaffs
Such wheyish Liquors; oft with Colic Pangs,
With pungent Colic Pangs distress'd, he'll roar,
And tofs, and turn, and curseth' unwholsome Draught.
But, Farmer, look, where full-ear'd Sheaves of Rye
Grow wavy on the Tilth, that Soil select
For Apples; thence thy Industry shall gain
Ten-fold Reward; thy Garners, thence with Store
Surcharg'd, shall burst; thy Press with purest Juice
Shall flow, which, in revolving Years, may try
Thy feeble Feet, and bind thy fault'ring Tongue.
Such is the *Kentchurch*, such *Dantzeyan* Ground,
Such thine, O learned *Brome*, and *Capel* such,
Willifian Burlton, much-lov'd *Geers* his *Marsh*,
And *Sutton-Acres*, drench'd with Regal Blood
Of *Ethelbert*, when to th' unhallow'd Feast

Of Mercian *Offa* he invited came,
 To treat of Spoufals: Long connubial Joys
 He promis'd to himself, allur'd by Fair
Elfrida's Beauty; but deluded dy'd
 In height of Hopes — Oh! hardest Fate, to fall
 By Shew of Friendship, and pretended Love!

I nor advise, nor reprehend the Choice
 Of *Marcley-Hill*; the Apple no where finds
 A kinder Mold: Yet 'tis unsafe to trust
 Deceitful Ground: Who knows but that, once more,
 This Mount may journey, and, his present Site
 Forfaking, to thy Neighbours Bounds transfer
 The goodly Plants, affording Matter strange
 For Law-Debates? If, therefore, thou incline
 To deck this Rise with Fruits of various Tastes,
 Fail not, by frequent Vows t'implore Success;
 Thus piteous Heav'n may fix the wand'ring Glebe.

But

But if (for Nature doth not share alike
Her Gifts) an happy Soil shou'd be with-held,
If a penurious Clay shou'd be thy Lot,
Or rough unweildy Earth, nor to the Plough,
Nor to the Cattle kind, with sandy Stones
And Gravel o'er-abounding, think it not
Beneath thy Toil; the sturdy Pear-tree here
Will rise luxuriant, and with toughest Root
Pierce the obstructing Grit, and restive Marle.

Thus naught is useless made; nor is there Land,
But what, or of it self, or else compell'd,
Affords Advantage. On the barren Heath
The Shepherd tends his Flock, that daily crop
Their verdant Dinner from the mossie Turf,
Sufficient; after them the Cackling Goose,
Close-grazer, finds wherewith to ease her Want.

What

What shou'd I more? Ev'n on the clifffy Height
Of *Penmenmaur*, and that Cloud-piercing Hill,
Plinlimmon, from afar the Traveller kens
Astonish'd, how the Goats their shrubby Brouze
Gnaw pendent; nor untrembling canst thou see,
How from a scraggy Rock, whose Prominence
Half overshades the Ocean, hardy Men,
Fearless of rending Winds, and dashing Waves,
Cut Sampire, to excite the squeamish Gust
Of pamper'd Luxury. Then, let thy Ground
Not lye unlabour'd; if the richest Stem
Refuse to thrive, yet who wou'd doubt to plant
Somewhat, that may to Human Use redound,
And Penury, the worst of Ills, remove?

There are, who, fondly studious of Increase,
Rich Foreign Mold on their ill-natur'd Land
Induce laborious, and with fatning Muck

Befmear

Book I. *C T D E R.*

9

Besmeare the Roots; in vain! the nurfling Grove
Seems fair awhile, cherish'd with foster Earth:
But, when the alien Compost is exhaust,
It's native Poverty again prevails.

Tho' this Art fails, despond not; little Pains,
In a due Hour employ'd, great Profit yield.
Th' Industrious, when the Sun in *Leo* rides,
And darts his fultriest Beams, portending Drought,
Forgets not at the Foot of ev'ry Plant
To sink a circling Trench, and daily pour
A just Supply of alimantal Streams,
Exhausted Sap recruiting; else, false Hopes
He cherishes, nor will his Fruit expect
Th' autumnal Season, but, in Summer's Pride,
When other Orchats smile, abortive fail.

Thus

Thus the great Light of Heav'n, that in his Course
Surveys and quickens all things, often proves
Noxious to planted Fields, and often Men
Perceive his Influence dire; sweltring they run
To Grotts, and Caves, and the cool Umbrage seek
Of woven Arbores, and oft the Rills
Still streaming fresh revisit, to allay
Thirst inextinguishable: But if the Spring
Preceding shou'd be destitute of Rain,
Or Blast Septentrional with brushing Wings
Sweep up the smoaky Mists, and Vapours damp,
Then wo to Mortals! *Titan* then exerts
His Heat intense, and on our Vitals preys,
Then Maladies of various Kinds, and Names
Unknown, malignant Fevers, and that Foe
To blooming Beauty, which imprints the Face
Of fairest Nymph, and checks our growing Love,
Reign

Book I. C T D E R

11

Reign far and near ; grim Death, in different Shapes,
Depopulates the Nations, thousands fall
His Victims, Youths, and Virgins, in their Flower,
Reluctant die, and sighing leave their Loves
Unfinish'd, by infectious Heav'n destroy'd.

Such Heats prevail'd, when fair *Eliza*, left [Worth,
Of *Winchcomb's* Name (next Thee in Blood, and
O fairest *St. John*!) left this toilsome World
In Beauty's Prime, and sadden'd all the Year :
Nor cou'd her Virtues, nor repeated Vows
Of thousand Lovers, the relentless Hand
Of Death arrest ; She with the *Vulgar* fell,
Only distinguish'd by this humble Verse.

But if it please the Sun's intemp'rate Force
To know, attend ; whilst I of ancient Fame
The Annals trace, and image to thy Mind,

How

How our Fore-fathers, (luckless Men!) ingulf'd
By the wide yawning Earth, to *Stygian* Shades
Went quick, in one sad Sepulchre enclos'd.

In elder Days, e'er yet the *Roman* Bands
Victorious, this our Other World subdu'd,
A spacious City stood, with firmest Walls
Sure mound'd, and with numerous Turrets crown'd,
Aerial Spires, and Citadels, the Seat
Of Kings, and Heroes resolute in War,
Fam'd *Ariconium*; uncontroul'd, and free,
'Till all-subduing *Latian* Arms prevail'd.
Then also, tho' to foreign Yoke submit, she
She undemolish'd stood, and even 'till now
Perhaps had stood, of ancient *British* Art
A pleasing Monument, not less admir'd
Than what from *Attic*, or *Etruscan* Hands

Arose;

Book I. *C T D E R.* 13

Arose; had not the Heav'nly Pow'rs averſe
Decreed her final Doom: For now the Fields
Labour'd with Thirſt, *Aquarius* had not ſhed
His wonted Show'rs, and *Sirius* parch'd with Heat
Solſtitial the green Herb: Hence 'gan relax
The Ground's Contexture, hence *Tartarean* Dregs,
Sulphur, and nitrous Spume, enkindling fierce,
Bellow'd within their darkſom Caves, by far
More diſmal than the loud diſploded Roar
Of brazen Enginry, that ceafeleſs ſtorm
The Baſtion of a well-built City, deem'd
Impregnable: Th' infernal Winds, 'till now
Cloſely imprifon'd, by *Titanian* Warmth,
Dilating, and with unctuous Vapours fed,
Diſdain'd their narrow Cells; and, their full Strength
Collecting, from beneath the ſolid Maſs
Upheav'd, and all her Caſtles rooted deep
Shook from their loweſt Seat; old *Vaga's* Stream,
Forc'd

Forc'd by the sudden Shock, her wonted Track
 Forsook, and drew her humid Train alope,
 Crankling her Banks: And now the low'ring Sky,
 And baleful Lightning, and the Thunder, Voice
 Of angry Gods, that rattled solemn, dismal
 The sinking Hearts of Men. Where shoud they turn
 Distress'd? Whence seek for Aid? when from below
 Hell threatens, and ev'n Fate supreme gives Signs
 Of Wrath and Desolation? Vain were Vows,
 And Plaints, and suppliant Hands, to Heav'n erect!
 Yet some to Fanes repair'd, and humble Rites
 Perform'd to *Thor*, and *Woden*, fabled Gods,
 Who with their Vot'ries in one Ruin shroud,
 Crush'd, and overwhelm'd. Others, in frantic Mood,
 Ran howling thro' the Streets, their hideous Yells
 Rend the dark Welkin; Horror stalks around,
 Wild-staring, and, his sad Concomitant,
 Despair, of abject Look: At ev'ry Gate

The

The thronging Populace with hasty Strides
Press furious, and, too eager of Escape,
Obstruct the easie Way; the rocking Town
Supplants their Footsteps; to, and fro, they reel
Astonish'd, as o'er-charg'd with Wine; when lo!
The Ground adust her riven Mouth disparts,
Horrible Chasm, profound! with swift Descent
Old *Ariconium* sinks, and all her Tribes,
Heroes, and Senators, down to the Realms
Of endless Night. Mean while, the loosen'd Winds
Infuriate, molten Rocks and flaming Globes
Hurl'd high above the Clouds; till, all their Force
Consum'd, her rav'nous Jaws th' Earth satiate clos'd.
Thus this fair City fell, of which the Name
Survives alone; nor is there found a Mark,
Whereby the curious Passenger may learn
Her ample Site, save Coins, and mould'ring Urns,
And huge unweildy Bones, lasting Remains

Of that Gigantic Race; which, as he breaks
The clotted Glebe, the Plowman haply finds,
Appall'd. Upon that treacherous Tract of Land,
She whilome stood; now *Ceres*, in her Prime,
Smiles fertile, and, with ruddiest Freight bedeckt,
The Apple-Tree, by our Fore-fathers Blood
Improv'd, that now recalls the devious Muse,
Urging her destin'd Labours to pursue.

The Prudent will observe, what Passions reign
In various Plants (for not to Man alone,
But all the wide Creation, Nature gave
Love, and Aversion): Everlasting Hate
The *Vine* to *Ivy* bears, nor less abhors
The *Coleworts* Rankness; but, with amorous Twine,
Clasps the tall *Elm*: The *Pastan Rose* unfolds
Her Bud, more lovely, near the fetid *Leek*,

(Crest

(Crest of stout *Britons*,) and inhances thence
The Price of her celestial Scent: The *Gourd*,
And thirsty *Cucumber*, when they perceive
Th' approaching *Olive*, with Resentment fly
Her fatty Fibres, and with Tendrils creep
Diverse, detesting Contact; whilst the *Fig*
Contemns not *Rue*, nor *Sage's* humble Leaf,
Close neighbouring: The *Herefordian* Plant
Caresses freely the contiguous *Peach*,
Hazel, and weight-resisting *Palm*, and likes
T' approach the *Quince*, and th' *Elder's* pithy Stem;
Uneasie, seated by funereal *Tough*,
Or *Walnut*, (whose malignant Touch impairs
All generous Fruits), or near the bitter Dews
Of *Cherries*. Therefore, weigh the Habits well
Of Plants, how they associate best, nor let
Ill Neighbourhood corrupt thy hopeful Grass.

[froth?
Wouldst thou, thy Vats with gen'rous Juice should
Respect thy Orchats; think not, that the Trees
Spontaneous will produce an wholesom Draught.
Let Art correct thy Breed: from Parent Bough
A Cyon meetly sever; after, force
A way into the Crabstock's close-wrought Grain
By Wedges, and within the living Wound
Enclose the Foster Twig; nor over-nice
Refuse with thy own Hands around to spread
The binding Clay: Ee'r-long their differing Veins
Unite, and kindly Nourishment convey
To the new Pupil; now he shoots his Arms
With quickest Growth; now shake the teeming Trunk,
Down rain th' impurpl'd Balls, ambrosial Fruit.
Whether the *Wilding's* Fibres are contriv'd
To draw th' Earth's purest Spirit, and resist

It's Feculence, which in more porous Stocks
Of *Cyder*-Plants finds Passage free, or else
The native Verjuice of the *Crab*, deriv'd
Thro' th' infix'd Graff, a grateful Mixture forms
Of tart and sweet; whatever be the Cause,
This doubtful Progeny by nicest Tastes
Expected best Acceptance finds, and pays
Largest Revenues to the Orchat-Lord.

Some think, the *Quince* and *Apple* wou'd combine
In happy Union; Others fitter deem
The *Sloe*-Stem bearing *Sylvan* Plums austere.
Who knows but Both may thrive? Howe'er, what loss
To try the Pow'rs of Both, and search how far
Two different Natures may concur to mix
In close Embraces, and strange Off-spring bear?
Thoul't find that Plants will frequent Changes try,
Undamag'd, and their marriageable Arms

Conjoin with others. So *Silurian* Plants
Admit the *Peache's* odoriferous Globe,
And *Pears* of sundry Forms; at different times
Adopted *Plums* will aliene Branches grace;
And Men have gather'd from the *Hawthorn's* Branch
Large *Medlars*, imitating regal Crowns.

Nor is it hard to beautifie each Month
With Files of particolour'd Fruits, that please
The Tongue, and View, at once, So *Mars's* Muse,
Thrice sacred Muse! commedious Precepts gives
Instructive to the Swains, not wholly bent
On what is gainful; Sometimes she diverts
From solid Counfels, shews the Force of Love
In savage Beasts; how Virgin Face divine
Attracts the hapless Youth thro' Storms, and Waves,
Alone, in deep of Night: Then she describes
The *Scythian* Winter, nor disdains to sing,

How

How under Ground the rude *Riphean* Race
Mimic brisk *Cyder* with the Brakes Product wild;
Sloes pounded, Hips, and *Servus*' harshest Juice.

Let sage Experience teach thee all the Arts
Of Grafting, and In-Eyeing; when to lop
The flowing Branches; what Trees answer best
From Root, or Kernel; She will best the Hours
Of Harvest, and Seed-time declare; by Her
The different Qualities of things were found,
And secret Motions; how with heavy Bulk
Volatile Herms, fluid and unmoist,
Mounts on the Wings of Air, to Her we owe
The *Indian* Weed, unknown to ancient Times,
Nature's choice Gift, whose acrimonious Fume
Extracts superfluous Juices, and refines
The Blood distemper'd from its noxious Salts;
Friend to the Spirits, which with Vapours bland

It gently mitigates, Companion fit
 Of Pleasantry, and Wine; nor to the Bards
 Unfriendly, when they to the vocal Shell
 Warble melodious their well-labour'd Songs.

She found the polish'd Glass, whose small Convex
 Enlarges to ten Millions of Degrees
 The Mite, invifible elfe, of Nature's Hand
 Leaft Animal; and fhews, what Laws of Life
 The Cheefe-Inhabitants obferve, and how
 Fabrick their Manfions in the harden'd Milk,
 Wonderful Artifts! But the hidden Ways
 Of Nature wouldft thou know? how firft the frames
 All things in Miniature? thy Specular Orb
 Apply to well-diftect'd Kernels; lo!
 Strange Forms arife, in each a little Plant
 Unfolds its Boughs: obferve the flender Threads
 Of firft-beginning Trees, their Roots, their Leaves,
 In narrow Seeds defcrib'd; Thou'lt wond'ring fay,

An

An inmate Orchat ev'ry Apple boasts.

Thus All things by Experience are display'd.

And Most improv'd. Then sedulouſly think

To meliorate thy Stock; no Way, or Rule

Be unassay'd; prevent the Morning Star

Aſſiduous, nor with the Western Sun

Surcease to work; lo! thoughtful of Thy Gain,

Not of my Own; I all the live-long Day

Consume in Meditation deep, reſcuse

From human Converſe, nor, at ſhut of Eve,

Enjoy Repoſe; but oft at Midnight Lamp

Ply my brain-racking Studies, if by chance

Thee I may counſel right; and oft this Care

Diſturbs me ſlumbering. Wilt thou then repine

To labour for thy Self? and rather chuſe

To lye ſupinely, hoping; Heav'n will bleſs

Thy ſlighted Fruits, and give thee Bread unearn'd?

'Twill

'Twill profit, when the Stork, sworn-Foe of Snakes,
Returns, to shew Compassion to thy Plants,
Fatigv'd with Breeding. Let the arched Knife
Well sharpen'd now assail the spreading Shades
Of Vegetables, and their thirsty Limbs
Dissever: for the genial Moisture, due
To Apples, otherwise mispends it self
In barren Twigs, and, for th' expected Crop,
Naught but vain Shoots, and empty Leaves abound.

When swelling Buds their od'rous Foliage shed,
And gently harden into Fruit, the Wife
Spare not the little Off-springs, if they grow
Redundant; but the thronging Clusters thin
By kind Avulsion: else, the starv'ling Brood,
Void of sufficient Sustainance, will yield
A slender Autumn; which the niggard Soul

Too

Too late shall weep, and curse his thrifty Hand,
That would not timely ease the pond'rous Boughs.

It much conduces, all the Cares to know
Of Gard'ning, how to scare nocturnal Thieves,
And how the little Race of Birds, that hop
From Spray to Spray, scooping the costliest Fruit
Insatiate, undisturb'd. *Priapus*' Form
Avails but little; rather guard each Row
With the false Terrors of a breathless Kite.
This done, the timorous Flock with swiftest Wing
Scud thro' the Air; their Fancy represents
His mortal Talons, and his ravenous Beak
Destructive; glad to shun his hostile Gripe,
They quit their Thefts, and unfrequent the Fields.

Besides, the filthy Swine will oft invade
Thy firm Inclosure, and with delving Snout

The

The rooted Forest undermine: forthwith
 Alloo thy furious Mastiff, bid him vex
 The noxious Herd, and print upon their Ears
 A sad Memorial of their past Offence.

The flagrant *Prayon* will not fail to bring
 Large Shoals of slow House-bearing Snails, that creep
 O'er the ripe Fruitage, paring slimy Tracts
 In the sleek Rinds, and unprest *Cyder* drink.
 No Art averts this Pest; on Thee it lyes,
 With Morning and with Evening Hand to rid
 The preying Reptiles; nor, if wise, wilt thou
 Decline this Labour, which it self rewards
 With pleasing Gain, whilst the warm Limbec draws
 Salubrious Waters from the nocent Brood.

Myriads of Wasps now also clustring hang,
 And drain a spurious Honey from thy Groves,
 Their

Their Winter Food; tho' oft repulst, again
They rally, undismay'd: but Fraud with ease,
Ensnares the noisom Swarms, let ev'ry Bough
Bear frequent Vials, pregnant with the Dregs
Of *Moyle*, or *Mum*, or *Treacle's* viscous Juice;
They, by th'alluring Odor drawn, in haste
Fly to the dulcet Cates, and crouding sip
Their palatable Bane; joyful thou'lt see
The clammy Surface all o'er-ströwn with Tribes
Of greedy Insects, that with fruitless Toil
Flap filmy Pennons oft, to extricate
Their Feet, in liquid Shackles bound, 'till Death
Bereave them of their worthless Souls: Such doom
Waits Luxury, and lawless Love of Gain!

Howe'er thou maist forbid external Force,
Intestine Evils will prevail; damp *Airs*,
And rainy Winters, to the Centre pierce

Of

Of firmest Fruits, and by unseen Decay
The proper Relish vitiate: then the Grub
Oft unobserv'd invades the vital Core,
Pernicious Tenant, and her secret Cave
Enlarges hourly, preying on the Pulp
Ceaseless; mean while the Apple's outward Form
Delectable the witlefs Swain beguiles,
'Till, with a writhen Mouth, and spattering Noise,
He tastes the bitter Morfel, and rejects
Disrelish'd; not with less Surprize, then when
Embattled Troops with flowing Banners pass
Thro' flow'ry Meads delighted, nor distrust
The smiling Surface; whilst the cavern'd Ground,
With Grain incentive stor'd, by suddain Blaze
Bursts fatal, and involves the Hopes of War
In fiery Whirls; full of victorious Thoughts,
Torn and dismembred, they aloft expire.

Now

Now turn thine Eye to view *Alcious' Groves*,
The Pride of the *Phæacian* Ile, from whence,
Sailing the Spaces of the boundless Deep,
To *Ariconium* pretious Fruits arriv'd:
The *Pippin* burnisht o'er with Gold, the *Moile*
Of sweetest hony'd Taste, the fair *Permain*,
Temper'd, like comliest Nymph, with red and white.
Salopian Acres flourish with a Growth
Peculiar, styl'd the *Ottley*: Be thou first
This Apple to transplant; if to the Name
It's Merit answers, no where shalt thou find
A Wine more priz'd, or laudable of Taste.
Nor does the *Eliot* least deserve thy Care,
Nor *John-Apple*, whose wither'd Rind, entrencht
With many a Furrow, aptly represents
Decrepid Age; nor that from *Harvey* nam'd,
Quick-relishing: Why should we sing the *Thrift*,

Cod-

Codling, or *Pomroy*, or of pimpled Coat
The *Russet*, or the *Cats-Head's* weighty Orb;
Enormous in its Growth; for various Use
Tho' these are meet, tho' after full repast
Are oft requir'd, and crown the rich Desert?

What, tho' the *Pear-Tree* rival not the Worth,
Of *Ariconian* Products? yet her Freight
Is not condemn'd, yet her wide-branching Arms
Best screen thy Mansion from the fervent Dog
Adverse to Life; the wintry Hurricanes
In vain imploy their Roar, her Trunc unmov'd
Breaks the strong Onset, and controls their Rage.
Chiefly the *Bosbury*, whose large Increase,
Annual, in sumptuous Banquets claims Applause.
Thrice acceptable Bev'rage! could but Art
Subdue the floating Lee, *Pomona's* self
Would dread thy Praise, and shun the dubious Strife.

Be it thy Choice, when Summer-Heats annoy,
To sit beneath her leafy Canopy,
Quaffing rich Liquids: Oh! how sweet t' enjoy,
At once her Fruits, and hospitable Shade!

But how with equal Numbers shall we match
The *Musk's* surpassing Worth! that earliest gives
Sure hopes of racy Wine, and in its Youth,
Its tender Nonage, loads the spreading Boughs
With large and juicy Off-spring, that defies
The Vernal Nippings, and cold Syderal Blasts!
Yet let her to the *Read-streak* yield, that once
Was of the *Sylvan* Kind, unciviliz'd,
Of no Regard, 'till *Scudamore's* skilful Hand
Improv'd her, and by courtly Discipline
Taught her the savage Nature to forget:
Hence styl'd the *Scudamorean* Plant; whose Wine
Who-ever tastes, let him with grateful Heart

Respect that ancient loyal House, and with
The noble Peer, that now transcends our Hopes
In early Worth, his Country's justest Pride,
Uninterrupted Joy, and Health entire.

Let every Tree in every Garden own
The *Red-break* as supream; whose pulpos Fruit
With Gold irradiate, and Vermilian shines
Tempting, not fatal, as the Birth of that
Primæval interdicted Plant, that won
Fond *Eve* in hapless Hour to taste, and die.
This, of more bounteous Influence, inspires
Poetic Raptures, and the lowly Muse
Kindles to loftier Strains; even I perceive
Her sacred Virtue. See! the Numbers flow
Easie, whilst, cheer'd with her nectareous Juice,
Hers, and my Country's Praises I exalt.
Hail *Herefordian* Plant, that dost disdain

All

All other Fields! Heav'n's sweetest Blessing, hail!
Be thou the copious Matter of my Song,
And Thy choice *Nectar*, on which always waits
Laughter, and Sport, and care-beguiling Wit,
And Friendship, chief Delight of Human Life.
What shou'd we wish for more? or why, in quest
Of Foreign Vintage, insincere, and mixt,
Traverse th'extreamest World? Why tempt the Rage
Of the rough Ocean? when our native Glebe
Imparts, from bounteous Womb, annual Recruits
Of Wine delectable, that far surmounts
Gallic, or *Latin* Grapes, or those that see
The setting Sun near *Calpe's* tow'ring Height.
Nor let the *Rhodian*, nor the *Lesbian* Vines
Vaunt their rich Must, nor let *Tokay* contend
For Sov'ranty; *Phœneus* self must bow
To th' *Ariconian* Vales: And shall we doubt
T' improve our vegetable Wealth, or let

The Soil lye idle, which, with fit Manure,
Will largeſt Ufury repay, alone
Impower'd to ſupply what Nature aſks
Frugal, or what nice Appetite requires ?
The Meadows here, with bat'ning Ooze enrich'd,
Give Spirit to the Graſs; three Cubits high
The jointed Herbage ſhoots; th' unfallow'd Glebe
Yearly o'ercomes the Granaries with Store
Of Golden *Wheat*, the Strength of Human Life.
Lo, on auxiliary Poles, the *Hops*
Aſcending ſpiral, rang'd in meet Array !
Lo, how the Arable with *Barley*-Grain
Stands thick, o'er-ſhadow'd, to the thirſty Hind
Transporting Proſpect ! Theſe, as modern Uſe
Ordains, infus'd, an Auburn Drink compoſe,
Wholeſome, of deathleſs Fame. Here, to the Sight,
Apples of Price, and plenteous Sheaves of Corn,
Oft interlac'd occur, and both imbibe

Fitting

Fitting congenial Juice; so rich the Soil,
So much does fructuous Moisture o'er-abound!
Nor are the Hills unamiable, whose Tops
To Heav'n aspire, affording Prospect sweet
To Human Ken; nor at their Feet the Vales
Descending gently, where the lowing Herd
Chews verd'rous Pasture; nor the yellow Fields
Gaily' enterchang'd, with rich Variety
Pleasing, as when an *Emerald* green, enchas'd
In flamy Gold, from the bright Mass acquires
A nobler Hue, more delicate to Sight.
Next add the *Sylvan* Shades, and silent Groves,
(Haunt of the *Druids*) whence the Hearth is fed
With copious Fuel; whence the sturdy Oak,
A Prince's Refuge once, th' æternal Guard
Of *England's* Throne, by sweating Peasants fell'd,
Stems the vast Main, and bears tremendous War
To distant Nations, or with Sov'ran Sway

Aws the divided World to Peace and Love.

Why shoud the *Chalybes*, or *Bilboa* boast

Their harden'd Iron; when our Mines produce

As perfect Martial Ore? Can *Tmolus'* Head

Vie with our Safron Odours? Or the Fleece

Batic, or finest *Tarentine*, compare

With *Lemster's* filken Wool? Where shall we find

Men more undaunted, for their Country's Weal

More prodigal of Life? In ancient Days,

The *Roman* Legions, and great *Cæsar* found

Our Fathers no mean Foes: And *Cressy* Plains,

And *Agincourt*, deep-ting'd with Blood, confess

What the *Silures* Vigour unwithstood

Cou'd do in rigid Fight; and chiefly what

Brydges' wide-wasting Hand, first Garter'd Knight,

Puissant Author of great *Chandois'* Stemm,

High *Chandois*, that transmits Paternal Worth,

Prudence, and ancient Prowess, and Renown,

This

Th' his Noble Off-spring. O thrice happy Peer!
That, blest with hoary Vigour, view'st Thy self
Fresh blooming in Thy Generous Son; whose Lips,
Flowing with nervous Eloquence exact,
Charm the wise Senate, and Attention win
In deepest Councils: *Ariconium* pleas'd,
Him, as her chosen Worthy, first salutes.
Him on th' *Iberian*, on the *Gallic* Shore,
Him hardy *Britons* blest; His faithful Hand
Conveys new Courage from afar, nor more
The General's Conduct, than His Care avails.

Thee also, Glorious Branch of *Cecil's* Line,
This Country claims; with Pride and Joy to Thee
Thy *Alterennis* calls: yet she endures
Patient Thy Absence, since Thy prudent Choice
Has fix'd Thee in the Muse's fairest Seat,
Where *Aldrich* reigns, and from his endless Store

Of univerfal Knowledge ftill fupplies
His noble Care; He generous Thoughts infills
Of true Nobility, their Country's Love,
(Chief End of Life) and forms their ductile Minds
To Human Virtues: By His Genius led,
Thou foon in every Art preeminent
Shalt grace this Ifle, and rife to *Burleigh's* Fame.

Hail high-born Peer! And Thou, great Nurfe of Arts,
And Men, from whence conspicuous Patriots fpring,
Hanmer, and *Bromley*; Thou, to whom with due
Refpect *Wintonia* bows, and joyful owns
Thy mitred Off-fpring; be for ever bleft
With like Examples, and to future Times
Proficuous, fuch a Race of Men produce,
As, in the Caufe of Virtue firm, may fix
Her Throne inviolate. Hear, ye Gods, this Vow

From

From One, the meanest in her numerous Train;
Tho' meanest, not least studious of her Praise.

Muse, raise thy Voice to *Beaufort's* spotless Fame,
To *Beaufort*, in a long Descent deriv'd
From Royal Ancestry, of Kingly Rights
Faithful Asserters: In Him centring meet
Their glorious Virtues, high Desert from Pride
Disjoin'd, unshaken Honour, and Contempt
Of strong Allurements. O Illustrious Prince!
O Thou of ancient Faith! Exulting, Thee,
In her fair List this happy Land inrolls.

Who can refuse a Tributary Verse
To *Weymouth*, firmest Friend of slighted Worth
In evil Days? whose hospitable Gate,
Unbarr'd to All, invites a numerous Train
Of daily Guests; whose Board, with Plenty crown'd,
Revives

Revives the Feast-rites old: Mean while His Care
Forgets not the afflicted, but content
In Acts of secret Goodness, shuns the Praise,
That sure attends. Permit me, bounteous Lord,
To blazon what tho' hid will beauteous shine;
And with Thy Name to dignifie my Song.

But who is ~~He~~, that on the winding Stream
Of *Vaga* first drew vital Breath, and now
Approv'd in *Anna's* secret Councils fits,
Weighing the Sum of Things, with wise Forecast
Sollicitous of public Good? How large
His Mind, that comprehends what-e'er was known
To Old, or Present Time; yet not elate,
Not conscious of its Skill? What Praise deserves
His liberal Hand, that gathers but to give,
Preventing Suit? O not unthankful Muse,
Him lowly reverence, that first deign'd to hear
Thy

Thy Pipe, and skreen'd thee from opprobrious Tongues.
Acknowledge thy Own *Harley*, and his Name
Inscribe on ev'ry Bark; the wounded Plants
Will fast increase, faster thy just Respect.

Such are our Heroes, by their Virtues known,
Or Skill in Peace, and War: Of softer Mold
The Female Sex, with sweet attractive Airs
Subdue obdurate Hearts. The Travellers oft,
That view their matchless Forms with transient Glance,
Catch suddain Love, and sigh for Nymphs unknown,
Smit with the Magic of their Eyes: nor hath
The Dædal Hand of Nature only pour'd
Her Gifts of outward Grace; their Innocence
Unfeign'd, and Virtue most engaging, free
From Pride, or Artifice, long Joys afford
To th'honest Nuptial Bed, and in the Wane
Of Life, rebate the Miseries of Age.

And

And is there found a Wretch, so base of Mind,
That Woman's pow'rful Beauty dares condemn,
Exactest Work of Heav'n? He ill deserves
Or Love, or Pity; friendless let him see
Uneasie, tedious Days, despis'd, forlorn,
As Stain of Human Race: But may the Man,
That chearfully recounts the Females Praise
Find equal Love, and Love's untainted Sweets
Enjoy with Honour. O, ye Gods! might I
Elect my Fate, my happiest Choice should be
A fair, and modest Virgin, that invites
With Aspect chaste, forbidding loose Desire,
Tenderly smiling; in whose Heav'nly Eye
Sits purest Love enthron'd: But if the Stars
Malignant, these my better Hopes oppose,
May I, at least, the sacred Pleasures know
Of strictest Amity; nor ever want
A Friend, with whom I mutually may share

Glad-

Gladness, and Anguish, by kind Intercourse
 Of Speech, and Offices. May in my Mind,
 Indelible a grateful Sense remain
 Of Favours undeserv'd!——O Thou! from whom
 Gladly both Rich, and Low seek Aid; most Wise
 Interpreter of Right, whose gracious Voice
 Breaths Equity, and curbs too rigid Law
 With mild, impartial Reason; what Returns
 Of Thanks are due to Thy Beneficence
 Freely vouchsaf't, when to the Gates of Death
 I tended prone? If Thy indulgent Care
 Had not preven'd, among unbody'd Shades
 I now had wander'd; and these empty Thoughts
 Of Apples perish'd: But, uprais'd by Thee,
 I tune my Pipe afresh, each Night, and Day
 Thy unexampled Goodness to extoll
 Desirous; but nor Night, nor Day suffice
 For that great Task; the highly Honour'd Name

Of

Of *Trevor* must employ my willing Thoughts
Incessant, dwell for ever on my Tongue.

Let me be grateful, but let far from me
Be fawning Cringe, and false dissembling Look,
And servile Flattery, that harbours oft
In Courts, and gilded Roofs. Some loose the Bands
Of ancient Friendship, cancell Nature's Laws
For Pageantry, and tawdry Gugaws. Some
Renounce their Sires, oppose paternal Right
For Rule, and Power; and other's Realms invade,
With specious Shews of Love. This traiterous Wretch
Betrays his Sov'ran. Others, destitute
Of real Zeal, to ev'ry Altar bend,
By Lucre sway'd, and act the basest Things
To be styl'd Honourable: Th' Honest Man,
Simple of Heart, prefers inglorious Want
To ill-got Wealth; rather from Door to Door

A jocund Pilgrim, tho' distress'd, he'll rove,
 Than break his plighted Faith; nor Fear, nor Hope,
 Will shock his stedfast Soul; rather debar'd
 Each common Privilege, cut off from Hopes
 Of meanest Gain, of present Goods despoil'd,
 He'll bear the Marks of Infamy, condemn'd,
 Unpity'd; yet his Mind, of Evil pure,
 Supports him, and Intention free from Fraud.
 If no Retinue with observant Eyes
 Attend him, if he can't with Purple stain
 Of cumbrous Vestments, labour'd o'er with Gold,
 Dazzle the Croud, and set them all agape;
 Yet clad in homely Weeds, from Envy's Darts
 Remote he lives, nor knows the nightly Pangs
 Of Conscience, nor with Spectre's grisly Forms,
Demons, and injur'd Souls, at Close of Day
 Annoy'd, sad interrupted Slumbers finds.
 But as a Child, whose inexperience'd Age

Nor

Nor evil Purpose fears, nor knows,) enjoys
Night's sweet Refreshment, humid Sleep, sincere
When Chaunticleer, with Clarion shrill, recalls
The tardy Day, he to his Labours hies
Gladsome, intent on somewhat that may ease
Unhealthy Mortals, and with curious Search
Examines all the Properties of Herbs,
Fossils, and Minerals, that th' embowell'd Earth
Displays, if by his Industry he can
Benefit Human Race: Or else his Thoughts
Are exercis'd with Speculations deep
Of Good, and Just, and Meet, and th' wholesome Rules
Of Temperance, and aught that may improve
The moral Life; not sedulous to rail,
Nor with envenom'd Tongue to blast the Fame
Of harmless Men, or secret Whispers spread,
'Mong faithful Friends, to breed Distrust, and Hate.
Studious of Virtue, he no Life observes

Except his own, his own employs his Cares,
Large Subject! that he labours to refine
Daily, nor of his little Stock denies
Fit Alms to *Lazars*, merciful, and meek.

Thus sacred *Virgil* liv'd, from courtly Vice,
And Baits of pompous *Rome* secure, at Court
Still thoughtful of the rural honest Life,
And how t' improve his Grounds, and how himself:
Best Poet! fit Exemplar for the Tribe
Of *Phæbas*, nbr less fit *Meonides*,
Poor eyless Pilgrim! and if after these,
If after these another I may name,
Thus tender *Spencer* liv'd, with mean Repast
Content, depress'd by Penury, and Pine
In foreign Realm: Yet not debas'd his Verse
By Fortune's Frowns. And had that Other Bard,
Oh, had but He that first ennobled Song

With holy Raptures, like his *Abdiel* been,
'Mong many faithless, strictly faithful found,
Unpity'd, he should not have wail'd his Orbs,
That roll'd in vain to find the piercing Ray,
And found no Dawn, by dim Suffusion veil'd !
But He—However, let the Muse abstain,
Nor blast his Fame, from whom she learnt to sing
In much inferior Strains, grov'ling beneath
Th' *Olympian* Hill, on Plains, and Vales intent,
Mean Follower. There let her rest a-while,
Pleas'd with the fragrant Walks, and cool Retreat.

CYDER.

BOOK II.

Harcourt, Whom th' ingenuous Love
of Arts

Has carry'd from Thy native Soil, beyond
Th' eternal *Alpine* Snows, and now detains
In *Italy's* waste Realms, how long must we
Lament Thy Absence? Whilst in sweet Sojourn
Thou view'st the Reliques of old *Rome*; or what,
Unrival'd Authors by their Presence, made
For ever venerable, rural Seats,

Tibur, and *Tusculum*, or *Virgil's* Urn

Green with immortal Bays, which haply Thou,
 Respecting his great Name, dost now approach
 With bended Knee, and strow with purple Flow'rs;
 Unmindful of Thy Friends, that ill can brook
 This long Delay. At length, Dear Youth, return,
 Of Wit, and Judgement ripe in blooming Years,
 And *Britain's* Isle with *Latian* Knowledge grace.
 Return, and let Thy Father's Worth excite
 Thirst of Preeminence; see! how the Cause
 Of Widows, and of Orphans He asserts
 With winning Rhetoric, and well argu'd Law!
 Mark well His Footsteps, and, like Him, deserve
 Thy Prince's Favour, and Thy Country's Love.

Mean while (altho' the *Massic* Grape delights
 Pregnant of racy Juice, and *Formian* Hills
 Temper Thy Cups, yet) wilt not Thou reject

Thy

Thy native Liquors: Lo! for Thee my Mill
Now grinds choice Apples, and the *British* Vats
O'erflow with generous Cyder; far remote
Accept this Labour, nor despise the Muse,
That, passing Lands, and Seas, on Thee attends.

Thus far of Trees: The pleasing Task remains,
To sing of Wines, and Autumn's blest Increase.
Th' Effects of Art are shewn, yet what avails
Gainst Heav'n? Oft, notwithstanding all thy Care
To help thy Plants, when the small Fruit'ry seems
Exempt from Ills, an oriental Blast
Disastrous flies, soon as the Hind, fatigu'd,
Unyokes his Team; the tender Freight, unskill'd
To bear the hot Disease, distemper'd pines
In the Year's Prime, the deadly Plague annoys
The wide Inclosure; think not vainly now

To treat thy Neighbours with mellifluous Cups,
Thus disappointed: If the former Years
Exhibit no Supplies, alas! thou must,
With tasteless Water wash thy droughty Throat.

A thousand Accidents the Farmer's Hopes
Subvert, or checque; uncertain all his Toil,
'Till lusty Autumn's luke-warm Days, allay'd
With gentle Colds, insensibly confirm
His ripening Labours: Autumn to the Fruits
Earth's various Lap produces, Vigour gives
Equal, intenerating milky Grain,
Berries, and Sky-dy'd Plums, and what in Coat
Rough, or soft Rind, or bearded Husk, or Shell;
Fat *Olives*, and *Pistacio's* fragrant Nut,
And the *Pine's* tastful Apple: Autumn paints
Ausonian Hills with Grapes, whilst *English* Plains
Blush with pomaceous Harvests, breathing Sweets.

O let me now, when the kind early Dew
 Unlocks th' embosom'd Odors, walk among
 The well rang'd Files of Trees, whose full-ag'd Store
 Diffuse *Ambrosial* Steams, than *Myrrh*, or *Nard*
 More grateful, or perfuming flow'ry *Beane*!
 Soft whisp'ring Airs, and the Larks mattin Song
 Then woo to musing, and becalm the Mind
 Perplex'd with irksome Thoughts. Thrice happy time,
 Best Portion of the various Year, in which
 Nature rejoyceth, smiling on her Works
 Lovely, to full Perfection wrought! but ah,
 Short are our Joys, and neighb'ring Griefs disturb
 Our pleasant Hours. Inclement Winter dwells
 Contiguous; forthwith frosty Blasts deface
 The blithsome Year: Trees of their shrivel'd Fruits
 Are widow'd, dreery Storms o'er all prevail.
 Now, now's the time; e'er hasty Suns forbid
 To work, disburthen thou thy sapless *Wood*

54 C T D E R. Book II.

Of its rich Progeny; the turgid Fruit
 Abounds with mellow Liquor; now exhort
 Thy Hinds to exercise the pointed Steel
 On the hard Rock, and give a wheely Form
 To the expected Grinder: Now prepare
 Materials for thy Mill, a sturdy Post
Cylindric, to support the Grinder's Weight
 Excessive, and a flexile Sallow' entrench'd,
 Rounding, capacious of the juicy Hord.
 Nor must thou not be mindful of thy Press
 Long e'er the Vintage; but with timely Care
 Shave the Goat's shaggy Beard, lest thou too late,
 In vain should'st seek a Strainer, to dispart
 The husky, terrene Dregs, from purer Must.
 Be cautious next a proper Steed to find,
 Whose Prime is past; the vigorous Horse disdains
 Such servile Labours, or, if forc'd, forgets
 His past Atchievements, and victorious Palms.

Blind

Book II. *C Y D E R.* 55

Blind *Bayard* rather, worn with Work, and Years,
Shall roll th' unweildy Stone; with sober Pace
He'll tread the circling Path 'till dewy Eve,
From early Day-spring, pleas'd to find his Age
Declining, not unuseful to his Lord.

Some, when the Prefs, by utmost Vigour screw'd,
Has drain'd the pulposus Mafs, regale their Swine
With the dry Refuse; thou, more wise shalt steep
Thy Husks in Water, and again employ
The pondrous Engine. Water will imbibe
The small Remains of Spirit, and acquire
A vinous Flavour; this the Peasants blith
Will quaff, and whistle, as thy tinkling Team
They drive, and sing of *Fusca's* radiant Eyes,
Pleas'd with the medly Draught. Nor shalt thou now
Reject the *Apple-Cheese*, tho' quite exhaust;
Ev'n now 'twill cherish, and improve the Roots

Of

56 *C Y D E R.* Book II.

Of sickly Plants; new Vigor hence convey'd
Will yield an Harvest of unusual Growth.
Such Profit springs from Husks discreetly us'd!

The tender Apples, from their Parents rent
By stormy Shocks, must not neglected lye,
The Prey of Worms: A frugal Man I knew,
Rich in one barren Acre, which, subdu'd
By endless Culture, with sufficient Must
His Casks replenisht yearly: He no more
Desir'd, nor wanted, diligent to learn
The various Seasons, and by Skill repell
Invading Pests, successful in his Cares,
'Till the damp *Lybian* Wind, with Tempests arm'd
Outrageous, bluster'd horrible amidst
His Cyder-Grove: O'er-turn'd by furious Blasts,
The fightly Ranks fall prostrate, and around
Their Fruitage scatter'd, from the genial Boughs

Stript

Stript immature: Yet did he not repine,
Nor curse his Stars; but prudent, his fall'n Heaps
Collecting, cherish'd with the tepid Wreaths
Of tedded Grass, and the Sun's mellowing Beams
Rival'd with artful Heats, and thence procur'd
A costly Liquor, by improving Time
Equal'd with what, the happiest Vintage bears.

But this I warn Thee, and shall alway warn,
No heterogeneous Mixtures use, as some
With watry Turneps have debas'd their Wines,
Too frugal; nor let the crude Humors dance
In heated Brass, steaming with Fire intense;
Altho' *Devonia* much commends the Use
Of strengthning *Vulcan*; with their native Strength
Thy Wines sufficient, other Aid refuse;
And, when th' allotted Orb of Time's compleat,
Are more commended than the labour'd Drinks.

Nor

Nor let thy Avarice tempt thee to withdraw
The Priest's appointed Share; with cheerful Heart
The tenth of thy Increase bestow, and own
Heav'n's bounteous Goodness, that will sure repay
Thy grateful Duty: This neglected, fear
Signal Avengeance, such as over-took
A Miser, that unjustly once with-held
The Clergy's Due; relying on himself,
His Fields he tended with successful Care,
Early, and late, when, or unwith't for Rain
Descended, or unseasonable Frosts
Curb'd his increasing Hopes, or when around
The Clouds dropt Fatness, in the middle Sky
The Dew suspended staid, and left unmoist
His execrable Glebe; recording this,
Be Just, and Wise, and tremble to transgress.

Learn

Learn now, the Promise of the coming Year
To know, that by no flattering Signs abus'd,
Thou wisely may'st provide: The various Moon
Prophetic, and attendant Stars explain
Each rising Dawn; e'er Icy Crufts surmount
The current Stream, the heav'nly Orbs serene
Twinkle with trembling Rays, and *Cynthia* glows
With Light unfully'd: Now the Fowler, warn'd
By these good Omens, with swift early Steps
Treads the crimp Earth, ranging thro' Fields and Glades
Offensive to the Birds, sulphureous Death
Checques their mid Flight, and heedless while they ^{[strain}
Their tuneful Throats, the tow'ring, heavy Lead
O'er-takes their Speed; they leave their little Lives
Above the Clouds, præcipitant to Earth.

The

The Woodcocks early Vifit, and Abode
Of long Continuance in our temperate Clime,
Foretell a liberal Harveft: He of Times
Intelligent, th'harfh *Hyperborean* Ice
Shuns for our equal Winters; when our Suns
Cleave the chill'd Soil, he backward wings his Way
To *Scandinavian* frozen Summers, meet
For his num'd Blood. But nothing profits more
Than frequent Snows: O, may'ft Thou often fee
Thy Furrows whiten'd by the woolly Rain,
Nutricious! Secret Nitre lurks within
The porous Wet, quick'ning the languid Glebe.

Sometimes thou fhalt with fervent Vows implore
A moderate Wind; the Orchat loves to wave
With Winter-Winds, before the Gems exert

Their

Book II. *C T D E R.* 61

Their feeble Heads; the loofen'd Roots then drink
Large Increment, Earnest of happy Years.

Nor will it nothing profit to observe
The monthly Stars, their pow'rful Influence
O'er planted Fields, what Vegetables reign
Under each Sign. On our Account has *Jove*
Indulgent, to all Moons some succulent Plant
Allotted, that poor, helpless Man might slack
His present Thirst, and Matter find for Toil.
Now will the *Corintbs*, now the *Rasps* supply
Delicious Draughts; the *Quinces* now, or *Plums*,
Or *Cherries*, or the fair *Thisbeian* Fruit
Are prest to Wines; the *Britons* squeeze the Works
Of sedulous Bees, and mixing od'rous Herbs
Prepare balsamic Cups, to wheezing Lungs
Medicinal, and short-breath'd, ancient Sires.

†

But,

But, if Thou'rt indefatigably bent
To toil, and omnifarious Drinks wou'dst brew;
Besides the Orchat, ev'ry Hedge, and Bush
Affords Assistance; ev'n afflictive *Birch*,
Curs'd by unletter'd, idle Youth, distills
A limpid Current from her wounded Bark,
Profuse of nursing Sap. When Solar Beams
Parch thirsty human Veins; the damask't Meads,
Unforc'd display ten thousand painted Flow'rs
Useful in Potables. Thy little Sons
Permit to range the Pastures; gladly they
Will mow the *Cowslip*-Posies, faintly sweet,
From whence thou artificial Wines shalt drain
Of icy Taste, that, in mid Fervors, best
Slack craving Thirst, and mitigate the Day.

Happy

*

Happy *Ierne*, whose most wholesome Air
 Poisons envenom'd Spiders, and forbids
 The baleful Toad, and Viper from her Shore!
 More happy in her Balmy Draughts, (enrich'd
 With Miscellaneous Spices, and the Root
 For Thirst-abating Sweetness prais'd,) which wide
 Extend her Fame, and to each drooping Heart
 Present Redress, and lively Health convey.

See, how the *Belga*, Sedulous, and Stout,
 With Bowls of fat'ning *Mum*, or blisful Cups
 Of Kernell-relish'd Fluids, the fair Star
 Of early *Phosphorus* salute, at Noon
 Jocund with frequent-rising Fumes! by Use
 Instructed, thus to quell their Native Flegm
 Prevailing, and engender wayward Mirth.

What need to treat of distant Climes, remov'd
Far from the sloping Journey of the Year,
Beyond *Petsora*, and *Islandic* Coasts?
Where ever-during Snows, perpetual Shades
Of Darkness, would congeal their livid Blood,
Did not the *Arctic* Tract, spontaneous yield
A cheering purple Berry, big with Wine,
Intensely fervent, which each Hour they crave,
Spread round a flaming Pile of Pines, and oft
They interlard their native Drinks with choice
Of strongest *Brandy*, yet scarce with these Aids
Enabl'd to prevent the fuddain Rot
Of freezing Nose, and quick-decaying Feet.

Nor less the Sable Borderers of *Nile*,
Nor who *Taprobane* manure, nor They,
Whom funny *Borneo* bears, are stor'd with Streams
Egregious,

Egregious, *Rum*, and *Rice's* Spirit extract.
For here, expos'd to perpendicular Rays,
In vain they covet Shades, and *Thrafcias'* Gales,
Pining with *Equinoctial* Heat, unless
The Cordial Glafs perpetual Motion keep,
Quick circuiting; nor dare they close their Eyes,
Void of a bulky Charger near their Lips,
With which, in often-interrupted Sleep,
Their frying Blood compells to irrigate
Their dry-furr'd Tongues, else minutely to Death
Obnoxious, dismal Death, th' Effect of Drought!

More happy they, born in *Columbus'* World,
Carybbes, and they, whom the *Cotton* Plant
With downy-sprouting Vests arrays! Their Woods
Bow with prodigious Nuts, that give at once
Celestial Food, and Nectar; then, at hand
The *Lemmon*, uncorrupt with Voyage long,

66 *C T D E R.* Book II.

To vinous Spirits added (heav'nly Drink!)
 They with Pneumatic Engine, ceaseless draw,
 Intent on Laughter; a continual Tide
 Flows from th'exhilarating Fount. As, when
 Against a secret Cliff, with sudden Shock
 A Ship is dash'd, and leaking drinks the Sea,
 Th'astonish'd Mariners ay ply the Pump,
 No Stay, nor Rest, 'till the wide Breach is clos'd.
 So they (but chearful) unfatigu'd, still move
 The draining Sucker, then alone concern'd,
 When the dry Bowl forbids their pleasing Work,

But if to hording Thou art bent, thy Hopes
 Are frustrate, shou'dst Thou think thy Pipes will flow
 With early-limpid Wine. The horded Store,
 And the harsh Draught, must twice endure the Sun's
 Kind strengthning Heat, twice Winter's purging Cold.

There

There are, that a compounded Fluid drain
 From different Mixtures, *Woodcock, Pippin, Møyle,*
 Rough *Eliot*, sweet *Permain*, the blended Streams
 (Each mutually correcting each) create
 A pleasurable Medly, of what Taste
 Hardly distinguish'd; as the show'ry Arch,
 With lifted Colours gay, Or, *Azure, Gules,*
 Delights, and puzzles the Beholder's Eye,
 That views the watry Brede, with thousand Shews
 Of Painture vary'd, yet's unskill'd to tell
 Or where one Colour rises, or one fajnts.

Some Cyders have by Art, or Age unlearn'd
 Their genuine Relish, and of fundry Vines
 Assum'd the Flavour; one sort counterfeits
 The *Spanish* Product, this, to *Gauls* has seem'd
 The sparkling *Nectar* of *Champaigne*; with that,

A *German* oft has swill'd his Throat, and sworn,
 Deluded, that Imperial *Rhine* bestow'd
 The Generous Rummer, whilst the Owner pleas'd,
 Laughs inly at his Guests, thus entertain'd
 With Foreign Vintage from his Cyder-Cask.

Soon as thy Liquor from the narrow Cells
 Of close-press'd Husks is freed, thou must refrain
 Thy thirsty Soul; let none persuade to broach
 Thy thick, unwholsom, undigested Cakes:
 The hoary Frosts, and Northern Blasts take care
 Thy muddy Bev'rage to serene, and drive
 Precipitant the baser, ropy Lees.

And now thy Wine's transpicious, purg'd from all
 It's earthy Gross, yet let it feed awhile
 On the fat Refuse, least too soon disjoin'd
 From spritely, it, to sharp, or vappid change.

When

When to convenient Vigour it attains,
Suffice it to provide a brazen Tube
Inflex ; self-taught, and voluntary flies
The defecated Liquor, thro' the Vent
Ascending, then by downward Tract convey'd,
Spouts into subject Vessels, lovely clear.
As when a Noon-tide Sun, with Summer Beams,
Darts thro' a Cloud, her watry Skirts are edg'd
With lucid Amber, or undrossy Gold :
So, and so richly, the purg'd Liquid shines.

Now also, when the Colds abate, nor yet
Full Summer shines, a dubious Season, close
In Glafs thy purer Streams, and let them gain,
From due Confinement, Spirit, and Flavour new.

For this Intent, the subtle Chymist feeds
Perpetual Flames, whose unresisted Force

O'er Sand, and Ashes, and the stubborn Flint
Prevailing, turns into a fufil Sea,
That in his Furnace bubbles funny-red :
From hence a glowing Drop with hollow'd Steel
He takes, and by one efficacious Breath
Dilates to a furprizing Cube, or Sphære,
Or Oval, and fit Receptacles forms
For every Liquid, with his plaftic Lungs,
To human Life fufservient; By his Means
Cyders in Metal frail improve; the *Moyle*,
And taftful *Pippin*, in a Moon's fhort Year,
Acquire compleat Perfection: Now they fmoke
Transparent, fparkling in each Drop, Delight
Of curious Palate, by fair Virgins crav'd.
But harfter Fluids different lengths of time
Expect: Thy Flask will flowly mitigate
The *Eliot's* Roughnefs. *Stirom*, firmeft Fruit,
Embottled (long as *Priameian Troy*

With.

Book II. C T D E R. 71

Withstood the *Greeks*) endures, e'er justly mild.
Softened by Age, it youthful Vigor gains,
Fallacious Drink! Ye honest Men beware,
Nor trust its Smoothness; The third circling Glass
Suffices Virtue: But may Hypocrites,
(That slyly speak one thing, another think,
Hateful as Hell) pleas'd with the Relish weak,
Drink on unwarn'd, 'till by enchanting Cups
Infatuate, they their wily Thoughts disclose,
And thro' Intemperance grow a while sincere.

The Farmer's Toil is done; his Cadsmature,
Now call for Vent, his Lands exhaust permit
T' indulge awhile. Now solemn Rites he pays
To *Bacchus*, Author of Heart-cheering Mirth.
His honest Friends, at thirsty hour of Dusk,
Come uninvited; he with bounteous Hand

Imparts

Imparts his smoaking Vintage, sweet Reward
Of his own Industry ; the well fraught Bowl
Circles incessant, whilst the humble Cell
With quavering Laugh, and rural Jest resounds.
Ease, and Content, and undissembled Love
Shine in each Face ; the Thoughts of Labour past
Encrease their Joy. As, from retentive Cage
When fullen *Philomel* escapes, her Notes
She varies, and of past Imprisonment
Sweetly complains ; her Liberty retriev'd
Cheers her sad Soul, improves her pleasing Song.
Gladsome they quaff, yet not exceed the Bounds
Of healthy Temp'rance, nor incroach on Night,
Season of Rest, but well bedew'd repair
Each to his Home, with un-supplanted Feet.
E'er Heav'n's emblazon'd by the rosie Dawn
Domestic Cares awake them ; brisk they rise,
Refresh'd, and lively with the Joys that flow

From

From amicable Talk, and moderate Cups
Sweetly' interchang'd. The pining Lover finds
Present Redress, and long Oblivion drinks
Of Coy *Lucinda*, Give the Debtor Wine;
His Joys are short, and few; yet when he drinks
His Dread retires, the flowing Glasses add
Courage, and Mirth: magnificent in Thought,
Imaginary Riches he enjoys,
And in the Goal expatiates unconfin'd.
Nor can the Poet *Bacchus*' Praise indite,
Debarr'd his Grape : The Muses still require
Humid Regalement, nor will aught avail
Imploring *Phæbus*, with unmoisten'd Lips.
Thus to the generous Bottle all incline,
By parching Thirst allur'd : With vehement Suns
When dusty Summer bakes the crumbling Clods,
How pleasant is't, beneath the twisted Arch
Of a retreating Bow'r, in Mid-day's Reign

To

To ply the sweet Carouse, remote from Noise,
Secur'd of fev'rish Heats! When th' aged Year
Inclines, and *Boreas*' Spirit blusters frore,
Beware th' inclement Heav'ns ; now let thy Hearth
Crackle with juiceless Boughs; thy lingring Blood
Now instigate with th' Apples powerful Streams.
Perpetual Showers, and stormy Guffs confine
The willing Ploughman, and *December* warns
To Annual Jollities; now sportive Youth
Carol incondite Rhythms, with fuiting Notes,
And quaver unharmonious; sturdy Swains
In clean Array, for rustic Dance prepare,
Mixt with the Buxom Damsels; hand in hand
They frisk, and bound, and various Mazes weave,
Shaking their brawny Limbs, with uncouth Mein,
Transported, and sometimes, an oblique Leer
Dart on their Loves, sometimes, an hasty Kiss
Steal from unwary Lasses; they with Scorn,

And

Book II *C Y D E R* 75

And Neck reclin'd, resent the ravish'd Blifs.
Mean while, blind *British* Bards with volant Touch
Traverse loquacious Strings, whose solemn Notes
Provoke to harmless Revels; these among,
A subtle Artist stands, in wondrous Bag
That bears imprison'd Winds, (of gentler fort
Than those, which erst *Laertes* Son enclos'd.)
Peaceful they sleep, but let the tuneful Squeeze
Of labouring Elbow rouse them, out they fly
Melodious, and with spritely Accents charm.
'Midst these Disports, forget they not to drench
Themselves with bellying Goblets, nor when Spring
Returns, can they refuse to usher in
The fresh-born Year with loud Acclaim, and store
Of jovial Draughts, now, when the sappy Boughs
Attire themselves with Blooms, sweet Rudiments
Of future Harvest: When the *Gnoſſian* Crown
Leads on expected Autumn, and the Trees

Dis-

76 *C T D E R.* Book II.

Discharge their mellow Burthens, let them thank
 Boon Nature, that thus annually supplies
 Their Vaults, and with her former Liquid Gifts
 Exhilerate their languid Minds, within
 The Golden *Mean* confir'd: Beyond, there's naught
 † Of Health, or Pleasure. Therefore, when thy Heart
 Dilates with fervent Joys, and eager Soul
 Prompts to pursue the sparkling Glafs, be sure
 'Tis time to shun it ; if thou wilt prolong
 Dire Computation, forthwith Reason quits
 Her Empire to Confusion, and Misrule,
 And vain Debates; then twenty Tongues at once
 Conspire in senseless Jargon, naught is heard
 But Din, and various Clamour, and mad Rant:
 Distrust, and Jealousie to these succeed,
 And anger-kindling Taunt, the certain Bane
 Of well-knit Fellowship. Now horrid Frays
 Commence, the brimming Glasses now are hurl'd
 With

With dire Intent; Bottles with Bottles clafh
In rude Encounter, round their Temples fly
The sharp-edg'd Fragments, down their batter'd Cheeks
Mixt Gore, and Cyder flow: What fhall we fay
Of rash *Elpenor*, who in evil Hour
Dry'd an immeafurable Bowl, and thought
T'exhale his Surfeit by irriguous Sleep,
Imprudent? Him, Death's Iron-Sleep oppreff,
Defcending carelefs from his Couch; the Fall
Luxt his Neck-joint, and fpinal Marrow bruis'd.
Nor need we tell what anxious Cares attend
The turbulent Mirth of Wine; nor all the kinds
Of Maladies, that lead to Death's grim Cave,
Wrought by Intemperance, joint-racking Gout,
Inteftine Stone, and pining Atrophy,
Chill, even when the Sun with *July*-Heats
Frys the fcorch'd Soil, and Dropfy all a-float,
Yet craving Liquids: Nor the *Centaur's* Tale

Be here repeated ; how with Lust, and Wine
Inflam'd, they fought, and spilt their drunken Souls
At feasting Hour. Ye Heav'nly Pow'rs, that guard
The *British* Isles, such dire Events remove
Far from fair *Albion*, nor let Civil Broils
Ferment from Social Cups : May we, remote
From the hoarse, brazen Sound of War, enjoy
Our humid Products, and with seemly Draughts
Enkindle Mirth, and Hospitable Love.

Too oft alas ! has mutual Hatred drench'd
Our Swords in Native Blood, too oft has Pride,
And hellish Discord, and insatiate Thirst
Of other's Rights, our Quiet discompos'd.
Have we forgot, how fell Destruction rag'd
Wide-spreading, when by *Eris'* Torch incens'd
Our Fathers warr'd ? What Hero's, signaliz'd
For Loyalty, and Prowess, met their Fate
Untimely, undeserv'd ! How *Bertie* fell,

Compton, and *Granvill*, dauntless Sons of *Mars*,
Fit Themes of endless Grief, but that we view
Their Virtues yet surviving in their Race!
Can we forget, how the mad, headstrong Rout
Defy'd their Prince to Arms, nor made account
Of Faith, or Duty, or Allegiance sworn?
Apostate, Atheist Rebels! bent to Ill,
With seeming Sanctity, and cover'd Fraud,
Instill'd by him, who first presum'd to oppose
Omnipotence; alike their Crime, th' Event
Was not alike; these triumph'd, and in height
Of barbarous Malice, and insulting Pride,
Abstain'd not from Imperial Bloud. O Fact
Unparallel'd! O *Charles*! O Best of Kings!
What Stars their black, disastrous Influence shed
On Thy Nativity, that Thou shou'dst fall
Thus, by inglorious Hands, in this Thy Realm,
Supreme, and Innocent, adjudg'd to Death

By those, Thy Mercy only wou'd have sav'd!
Yet was the Cyder-Land unstain'd with Guilt;
The Cyder-Land, obsequious still to Thrones,
Abhorr'd such base, disloyal Deeds, and all
Her Pruning-hooks extended into Swords,
Undaunted, to assert the trampled Rights
Of Monarchy; but, ah! successful She
However faithful! then was no Regard
Of Right, or Wrong. And this, once Happy, Land
By home-bred Fury rent, long groan'd beneath
Tyrannic Sway, 'till fair-revolving Years
Our exil'd Kings, and Liberty restor'd.
Now we exult, by mighty *ANN*'s Care
Secure at home, while She to foreign Realms
Sends forth her dreadful Legions, and restrains
The Rage of Kings: Here, nobly She supports
Justice oppress'd; here, Her victorious Arms
Quell the Ambitious: From Her Hand alone

All *Europe* fears Revenge, or hopes Redress.
 Rejoice, O *Albion*! sever'd from the World
 By Nature's wife Indulgence, indigent
 Of nothing from without; in One Supreme
 Intirely blest; and from beginning time
 Design'd thus happy; but the fond Desire
 Of Rule, and Grandeur, multiply'd a Race
 Of Kings, and numerous Sceptres introduc'd,
 Destructive of the public Weal: For now
 Each Potentate, as wary Fear, or Strength,
 Or Emulation urg'd, his Neighbour's Bounds
 Invades, and ampler Territory seeks
 With ruinous Assault, on every Plain
 Host cop'd with Host, dire was the Din of War,
 And ceaseless, or short Truce haply procur'd
 By Havoc, and Dismay, 'till Jealousy
 Rais'd new Combustion: Thus was Peace in vain
 Sought for by Martial Deeds, and Conflict stern:

'Till *Edgar* grateful (as to those who pine
A dismal half-Year Night, the orient Beam
Of *Phæbus* Lamp) arose, and into one
Cemented all the long-contending Pow'rs,
Pacific Monarch; then her lovely Head
Concord rear'd high, and all around diffus'd
The Spirit of Love; at Ease, the Bards new strung
Their silent Harps, and taught the Woods, and Vales,
In uncouth Rhythms, to echo *Edgar's* Name.
Then Gladness smil'd in every Eye; the Years
Ran smoothly on, productive of a Line
Of wise, Heroic Kings, that by just Laws
Establish'd Happiness at home, or crush'd
Insulting Enemies in farthest Climes.

See Lyon-Hearted *Richard*, with his Force
Drawn from the North, to *Jury's* hallow'd Plains!
Piously valiant, (like a Torrent swell'd

With

With wintry Tempests, that disdains all Mounds,
 Breaking a Way impetuous, and involves
 Within its Sweep, Trees, Houses, Men) he press'd
 Amidst the thickest Battel; and o'er-threw
 What-e'er withstood his zealous Rage; no Pause,
 No Stay of Slaughter, found his vigorous Arm,
 But th' unbelieving Squadrons turn'd to Flight
 Smote in the Rear, and with dishonest Wounds
 Mangl'd behind: The *Soldan*, as he fled,
 Oft call'd on *Alla*, gnashing with Despite,
 And Shame, and murmur'd many an empty Curse.

Behold Third *Edward's* Streamers blazing high
 On *Gallia's* hostile Ground! his Right withheld,
 Awakens Vengeance; O imprudent *Gauls*,
 Relying on false Hopes, thus to incense
 The warlike *English*! one important Day
 Shall teach you meaner Thoughts: Eager of Fight,
 Fierce

Feirce *Brutus* Off-fpring to the adverfe Front
 Advance refiftlefs, and their deep Array
 With furious Inroad pierce; the mighty Force
 Of *Edward*, twice o'erturn'd their desperate King,
 Twice he arofe, and join'd the horrid Shock :
 The third time, with his wide-extended Wings,
 He fugitive declin'd fuperior Strength,
 Difcomfited; perfu'd, in the fad Chace
 Ten Thoufands ignominious fall, with Bloud
 The Vallies float: Great *Edward* thus aveng'd,
 With golden *Iris* his broad Shield embofs'd.

[Tongues
 Thrice glorious Prince! whom, Fame with all her
 For ever fhall refound. Yet from his Loins
 New Authors of Diffention fpring; from him
 Two Branches, that in hofting long contend
 For Sov'ran Sway, (and can fuch Anger dwell
 In nobleft Minds?) but little now avail'd

The

The Ties of Friendship; every Man, as lead
By Inclination, or vain Hope, repair'd
To either Camp, and breath'd immortal Hate,
And dire Revenge: Now horrid Slaughter reigns;
Sons against Fathers tilt the fatal Lance,
Careless of Duty, and their native Grounds
Distain with Kindred Blood, the twanging Bows
Send Showers of Shafts, that on their barbed Points
Alternate Ruin bear. Here might you see
Barons, and Peasants on th' embattled Field
Slain, or half dead, in one huge, ghastly Heap
Promiscuously amass: with dismal Groans,
And Ejulation, in the Pangs of Death
Some call for Aid, neglected; some o'erturn'd
In the fierce Shock, lye gasping, and expire,
Trampled by fiery Coursers; Horror thus,
And wild Uproar, and Desolation reign'd

Unrespited: Ah! who at length will end
This long, pernicious Fray? What Man has Fate
Reserv'd for this great Work?—Hail, happy Prince
Of *Tudor's* Race, whom in the Womb of Time
Cadwallador foresaw! Thou, Thou art He,
Great *Richmond Henry*, that by nuptial Rites
Must close the Gates of *Janus*, and remove
Destructive Discord: Now no more the Drum
Provokes to Arms, or Trumpet's Clangor shrill
Affrights the Wives, or chills the Virgin's Bloud;
But Joy, and Pleasure open to the View
Uninterrupted! With presaging Skill
Thou to Thy own unitest *Fergus' Line*
By wife Alliance; from Thee *James* descends,
Heav'n's chosen Fav'rite, first *Britannic King*.
To him alone, Hereditary Right
Gave Power supreme; yet still some Seeds remain'd

Of

Of Discontent ; two Nations under One,
In Laws and Int'rest diverse, still persu'd
Peculiar Ends, on each Side resolute
To fly Conjunction ; neither Fear, nor Hope,
Nor the sweet Prospect of a mutual Gain,
Cou'd ought avail, 'till prudent *ANNA* said
LET THERE BE UNION ; strait with Reve-
rence due
To Her Command, they willingly unite,
One in Affection, Laws, and Government,
Indissolubly firm ; from *Dubris* South,
To Northern *Orcades*, Her long Domain.

And now thus leagu'd by an eternal Bond,
What shall retard the *Britons*' bold Designs,
Or who sustain their Force ; in Union knit,
Sufficient to withstand the Pow'rs combin'd

Of all this Globe? At this important Act
The *Mauritanian* and *Cathaian* Kings
Already tremble; and th' unbaptiz'd *Turk*
Dreads War from utmost *Thule*; uncontrol'd
The *British* Navy thro' the Ocean vast
Shall wave her double Cross, t' extreamest Climes
Terrific, and return with odorous Spoils
Of *Araby* well fraught, or *Indus*' Wealth,
Pearl, and Barbaric Gold; mean while the Swains
Shall unmolested reap, what Plenty sows
From well stor'd Horn, rich Grain, and timely Fruits.
The elder Year, *Pomona*, pleas'd, shall deck
With ruby-tinctur'd Births, whose liquid Store
Abundant, flowing in well blended Streams,
The Natives shall applaud; while glad they talk
Of baleful Ills, caus'd by *Bellona*'s Wrath
In other Realms; where-e'er the *British* spread

Triumphant Banners, or their Fame has reach'd
Diffusive, to the utmost Bounds of this
Wide Universe, *Silurian* Cyder borne
Shall please all Tasts, and triumph o'er the Vine.

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million. The number of people who are malnourished has increased from 1.2 billion to 1.5 billion. The number of people who are obese has increased from 100 million to 300 million.

There are a number of reasons for this. One of the main reasons is that the world population has increased from 5 billion to 6 billion. This has led to a greater demand for food. Another reason is that the world's diet has changed. In many countries, people are eating more meat and less vegetables. This has led to an increase in the number of people who are obese. A third reason is that the world's climate has changed. This has led to a decrease in the amount of food that can be grown in some areas. This has led to a decrease in the amount of food that is available to people in those areas.

There are a number of things that can be done to reduce the number of people who are undernourished. One of the most important things is to increase the amount of food that is produced. This can be done by increasing the amount of land that is used for agriculture. Another important thing is to improve the way that food is distributed. This can be done by building more roads and bridges. A third important thing is to improve the way that food is stored. This can be done by building more warehouses and silos.

This can be done by building more roads and bridges. A third important thing is to improve the way that food is stored. This can be done by building more warehouses and silos.

There are a number of things that can be done to reduce the number of people who are obese. One of the most important things is to increase the amount of physical activity that people do. This can be done by building more parks and recreation areas. Another important thing is to improve the way that food is marketed. This can be done by banning advertising for unhealthy foods. A third important thing is to improve the way that food is sold. This can be done by banning the sale of unhealthy foods in schools and workplaces.
